myhomecare.ie

## Complete Independent Living Solution

Enabling our clients to live independently at home for longer with a combination of technology and in person care supports.

## 10 Years Experience in Homecare

We have been providing high quality homecare across Ireland for 10+ years.

## Innovative and Future Focused

We believe that a blend of technology and care is needed to future proof our health system.

# Our Solution

Mobile App

Smart Devices

In Person Care

Remote Monitoring

---

## MOBILE APP

Family caring app which facilitates easy communication within "Circles of Care". The app pulls in data from our peripheral devices allowing all information to be viewed and shared in one easy to use platform.

## ASSISTIVE DEVICES

We provide our clients with a bespoke kit of devices depending on their needs. We offer a GPS enabled fall pendant, discreet motion sensors and smart vitals monitoring devices which all integrate directly with our app.

## SUPPORT SERVICES

We offer a range of support services including a 24/7 telehealth service, remote monitoring of vitals, early hospital discharge support, rehabilitation care and homecare supports.

# ROSIA & ISAAC

## STRATEGIC FIT

We have expertise both in providing in person re-enablement care, and in providing remote telecare therefore tele-rehabilitation would be an excellent strategic fit for us.

## SHARED GOALS & VALUES

As an organisation our goal is to provide high quality care to our customers in their own homes, our goals align with the ROSIA project.

## COLLABORATION

Integration is at the heart of what we do, we are willing to collaborate with others in this space towards a common objective.
